

A woman with blonde hair in a ponytail, wearing glasses, a black jacket, and black leggings, is walking through a warehouse aisle. She is carrying a large cardboard box with yellow and black branding. The box has the text 'JUNGHEINRICH Parts Direct' and 'JUNGHEINRICH Export' visible. The background shows tall blue metal shelving units filled with boxes, creating a sense of a large, organized warehouse. The lighting is bright and even.

**Jungheinrich Parts Direct.**  
**A new standard in spare parts logistics.**

**Jungheinrich Essentials.**  
See inside for some great deals on parts and accessories to keep your fleet moving...

**JUNGHEINRICH**

**“Incoming orders are handled more efficiently so that our customers get their ordered spare parts quicker”**

**From our new central spare parts warehouse, direct to you.**

**In order to create the best possible worldwide parts network, Jungheinrich have invested in a brand new parts centre in Kaltenkirchen, near Hamburg - a state-of-the-art facility which draws on our unique ability to design and build a bespoke and highly-efficient warehouse.**

The core of the automatic warehouse system is a 7-aisle pallet high bay warehouse with space for 21,168 pallets, as well as an 8-aisle automatic small parts warehouse with 80,000 container locations. We dispatch more than 11,000 parts worldwide every day. Up to 1,000 spare parts per hour in three time zones (America, Central Europe, and Asia) can be dispatched due to the bespoke logistics system solution.

So whatever parts you require, be safe in the knowledge that it doesn't come easier or faster than with Jungheinrich Parts Direct.

**JUNGHEINRICH**

## Genuine spare parts ensure safety.

**Only genuine Jungheinrich spare parts bring with them the expertise and knowhow of the manufacturer.**

Using genuine spare parts is the only way to maintain optimum interaction between all components, ensuring maximum reliability and preserving the value of your truck and any warranty on it.

Jungheinrich guarantees that all its parts are manufactured to a certified quality and that they meet the high performance requirements for our forklift trucks and materials.

Using foreign parts can lead to serious accidents and expensive breakdowns, putting your business at risk from insurance claims, absence of staff and unproductive downtime.

## Safety extends right through the entire warehouse with Jungheinrich's 360-degree protection.

As storage facilities become increasingly more complex and downtimes of people and equipment threaten productivity, expectations towards safety inside the warehouse are growing. Jungheinrich's comprehensive 360-degree protection covers all five risk areas in the warehouse: Protecting people, goods, your warehouse/equipment, your machinery and your data.

As a family-owned company and leading provider in intralogistics, we are committed to raising warehouse safety levels, developing innovative ideas and technology to help reduce the number of accidents in the workplace.

## Ensuring the welfare of your drivers with our specialist training courses.

**Prevention plays a key role when it comes to raising warehouse safety levels.**

Operating a forklift truck requires specialised training from fully qualified instructors. This can help reduce the likelihood of accidents and improve the safety of both operators and pedestrians within your workplace.

Jungheinrich offer a complete training solution for all categories of forklift and materials handling equipment, with five dedicated training centers across the UK and over 65 accredited instructors.

The material handling training courses we offer meet all industry best practice guidelines, working alongside leading associations and accrediting bodies to ensure we deliver the highest standard of training for every course.

Training has always been important to Jungheinrich. Trained operators will make for a much more productive operation and improve the life of your trucks.

# Jungheinrich Essentials.

## Replacement forks

Produced from the finest quality British steel and manufactured in the UK, our forks are competitively priced, great quality with great lead times, all supported by the highest technical expertise.

Manufactured from high grade certified materials, all forks are rigorously tested for resistance, crack test, load capacity, material and mechanical composition and integrity. All forks meet or exceed national and international standards - including ISO 2328, ISO 2330, and ANSI B.56.

Download our free fork safety brochure and complete usage instructions from our website: [www.jungheinrich.co.uk](http://www.jungheinrich.co.uk)

(+ VAT)

## Get your hands on a FREE Jungheinrich Fork Wear Gauge

Did you know that just 10% wear in forks reduces lifting capacity by about 20%?

Our aluminium wear measuring card will make it easy for you to check fork wear: Firstly, determine the nominal thickness "N" of the fork with the scale (in the rear part of the fork, as illustrated).

Place the opening assigned to nominal fork thickness "N" (for example "N 40" for a nominal thickness of 40 mm) in the area of the greatest wear (often in the formed area).

If the opening of the relevant measuring card can be pushed onto the fork, the fork must be replaced. The wear has already exceeded 10% of the nominal thickness.

To get yours call: 0800 634 0203 email: [parts.sales@jungheinrich.co.uk](mailto:parts.sales@jungheinrich.co.uk)

## Consumables

Keep your fleet in top condition with our extensive range of care products.

### Forklift pre-use Inspection System

Starter pack of inspection kits, with plastic wallets and cable ties. Wallets can be mounted on machinery or racking which is being inspected to display inspection status indicators and house inspection pad when not in use. Wallets show 'Do Not Use' as default if an inspection status has not been recorded and displayed.  
**£4.85**

**£30.31**  
(+ VAT)

### Chemical Spill Kit (Forklift) 20Litre

Spill Kit in a hi-viz cylinder bag. For use on leaks and spills in the workplace for quick and efficient clean-up. The kit includes absorbent socks to contain spills and protect drains and absorbent pads to soak up spilled liquids. Disposal bag and zip-tie included.  
20 Litre **£30.31**

**£128.05**  
(+ VAT)

### Oil & Fuel Spill Kit - 125Litre

For quick response to spills of oils, fuels and solvents. Ideal for areas where drums and IBCs are used, stored or transported. Contents include absorbent socks to contain spills and protect drains, absorbent pads to soak up spilled liquids, disposal bags, zip-ties, caution tape, instructions and contents sheet included. Suitable for hydraulic oil, engine oil, lubricating oil and solvents.  
125 Litre **£202.57**

## Fork attachments

**FROM £478.75**  
(+ VAT)

### Fork Mounted Yard Sweeper

A quick and easy solution for sweeping up your loose granule products such as sand, top soil or similar. Available in three widths; 1200mm wide **£478.75**  
1500mm wide **£678.75**  
1800mm wide **£850.00**  
2450mm wide **£1,018.75**

**FROM £446.25**  
(+ VAT)

### Fork Mounted Magnet

An effective forklift magnet attachment that clears factory floors, car parks and goods yards of unwanted steel debris minimizing risk of punctures.  
1220mm **£446.25**  
1800mm **£616.25**

**FROM £317.50**  
(+ VAT)

### Load Buffer

Simply attach magnetically to the face of the fork to help reduce damage to fragile loads. Sold in pairs.  
80 x 50 forks 460mm long **£317.50**  
100 x 50 forks 460mm long **£345.00**  
100 x 50 forks 560mm long **£360.00**  
130 x 60 forks 560mm long **£392.50**  
150 x 60 forks 720mm long **£398.75**

**£387.50**  
(+ VAT)

### Magnetic Fork Protectors

Lightweight fork covers to reduce load damage, scratching and slippage off the forks. Easily trimmed to length if necessary.  
100 x 1500 x 5mm **£387.50 delivered**  
150 x 1000 x 5mm **£387.50 delivered**

**FROM £2,457.00**  
(+ VAT)

### iForks - Digital Weighing Scales

These wireless battery operated scales for forklift trucks provide the ability to accurately weigh where you want, when you want.  
1150mm iForks Economy - 2kg increments, max error is 0.2% of scale capacity (2500kg) **£2,457.00 delivered**  
1150mm iForks 32 - 1kg increments to 1000kg 2kg over, max error is 0.1% of applied load **£3,330.00 delivered**

## Battery accessories

**£189.25**  
(+ VAT)

### Battery Service Board

All safety-relevant accessories for battery maintenance. Content: Eye wash, safety glasses, gloves, acid absorbing spray, aerometer (to control acid content of battery fluid). Size: 650 x 650mm **£189.25**

**FROM £4.51**  
(+ VAT)

### De-ionised Water

5 Litre **£4.51**  
20 Litre **£12.40**

**£57.43**  
(+ VAT)

### HydroBasic Watering Cart

Manual 6 litre self-contained water delivery system.  
**£57.43**

**£377.14**  
(+ VAT)

### HydroFill Watering Cart

The HydroFill's simple, but rugged design makes it easy to use and reliable. Simply fill the cart with a suitable source of de-ionised water, wheel it to your battery, attach to the filling system and switch on.  
**£377.14**

**£513.00**  
(+ VAT)

### HydroFill PRO Watering Cart

The deioniser cartridge fits inside the HydroFill PRO making it the only mobile water cart with an integrated deioniser. You can now make pure water instantly, taking it to the batteries that need it, wherever they are.  
60 Litre **£513.00**

**£47.74**  
(+ VAT)

### Watering Gun

Provides a quick, safe and reliable way of topping lead acid batteries. They are built with automatic shut off, which ensures the battery is filled to the correct level every time.  
**£47.74**

**£230.57**  
(+ VAT)

### Ion Exchanger Kit

Cost effective solution converting mains fed water into deionised water for battery topping.  
2400 Litre **£230.57**

## Winter

**FROM £1,600.00**  
(+ VAT)

### Weatherproof Cab

A warm and dry driver is more productive. Features include: Front Screen complete with wiper and washer and metal roof complete with frame and window view. Add an opening rear screen and sides - either PVC or full metal. Price includes delivery and fitting. Fully heated cabs are also available, please enquire.  
Weatherproof Cab with PVC Sides **£1,600.00**

**FROM £567.14**  
(+ VAT)

### Snow Plough

Fork mounted snow plough complete with rubber wear strip. Maximum fork blade size 150 x 50mm. Replacement rubber blades available on request.  
1250mm wide **£567.14 delivered**  
1500mm wide **£580.00 delivered**  
1800mm wide **£595.71 delivered**

### Gritters

Mini towable gritter supplied with a ring towing eye. For use with rock salt only.  
**£528.57 delivered**  
Pedestrian salt spreader with large pneumatic tyres for easy movement, with a 50kg capacity and a non-corrosive hopper. **£175.00 delivered**

**FROM £97.14**  
(+ VAT)

### Snow Socks

The perfect solution to keep your forklifts moving during the winter. The forklift snow sock can be quickly and simply fitted over the driving wheels of the forklift, thus giving the forklift enough grip to start moving again. These heavy duty ribbed textile wheel covers with an elastic edge are the ideal winter accessory to ensure your forklifts don't get stuck in the snow.  
18 x 7 - 8 **£97.14 delivered**
